CONNECT

2024 User Conference & Industry Event

We are excited to announce ePS CONNECT 2024, eProductivity Software's annual user conference and industry event, taking place at The Venetian Las Vegas from August 20-22.

This year, we are preparing an another outstanding lineup of sessions, workshops, and networking events designed to empower your business with the latest in digital solutions. Get ready for the best CONNECT ever—packed with invaluable insights and unparalleled opportunities to drive your business forward. This will undoubtedly be our most impactful and memorable conference yet!

Highlighting the ePS Packaging tracks

This year's conference features an expanded selection of customer-led sessions, offering real-life insights into how our software solutions bring substantial value and efficiencies to organizations globally. Notably, we have sessions led by key players in the industry:

- **G3 Enterprises** will discuss their achievements in automating scheduling using PrintFlow® and how they leverage Radius® ERP in a multisite environment. This session will provide valuable insights into streamlining operations and enhancing coordination across various locations.
- **WestRock** will share their transformation in estimating processes across multiple plants facilitated by iQuote. Learn how integrating iQuote has revolutionized their workflow and improved accuracy and efficiency.

Change management and innovation

Change management is crucial for successful technology adoption, which is why we have a dedicated session hosted by Zumbiel Packaging. Having recently gone live with most of the Packaging Suite modules, they will share their journey and lessons learned, offering a roadmap for others undergoing similar transformations.

Looking toward a more sustainable future

Don't miss our session on reducing waste through strategic use of key modules of the Packaging Suite. This discussion will focus on sustainability practices that not only benefit the environment, but also improve your bottom line by reducing unnecessary waste across your operations.

Network with peers and meet with ePS leadership and product experts

As always, we will host our popular Speed Dating and RUG Networking events, providing ample opportunities for you to engage with peers and experts alike. Responding to feedback from last year, we have increased the availability of lab time for one-on-one sessions with our experts, ensuring you receive personalized advice and insights. Lastly, meet with our senior leadership and functional leaders to help us build an even better ePS.

CONNECT 2024 is not just a conference—it's an opportunity to explore, network, and discover how ePS can drive your business forward. Whether you are looking to optimize your operational efficiency, enhance your technical capacity, or expand your industry network, you should add this to your calendar.

We look forward to welcoming you to Las Vegas.

Register today and be a part of this transformative experience!
